Kunzman's

Famous

INDIANA DAHLIAS

Since 1913

Have you had trouble growing dahlias?

A vast majority of growers weaken their roots by "High Culture" methods, to produce giant exhibition blooms; we *never* exhibit.

All our dahlias are grown in comparatively poor soil, without irrigation, fertilization or any "forcing" whatever; therefore they will grow well and produce abundantly for everyone, anywhere, as they are super-hardy. We heartily invite you to compare our prices with any reputable grower.

Our list contains all the best of the new and old varieties; our satisfied customers represent every State in the U. S., and many foreign countries. Are you one?

1942

Kunzman's Dahlias

(Carl R. Kunzman)

New Albany, Indiana

A Card

The founder of the Indiana Dahlia Farms, E. L. Kunzman, having been, through ill-health, incapacitated for the active management of this business since 1935, has now given over the entire control of same to his son Carl R. who, he feels confident will give one and all of our customers the best of stock and service, and will be fair in all dealings. Should any of our valued customers wish to communicate with me, my son will forward the communication, wherever I may be and I will be pleased to answer same.

My whole-hearted thanks to the many who have placed their confidence in me in past years and may they continue for many years to come as *pleased customers*.

E. L. KUNZMAN.

Dahlias We Originated

We believe that we can safely challenge any Grower or Originator to show a list of Dahlias equal in quality to those we have originated in the past 27 years.

For universal excellence and satisfaction, for dependability, individuality and durability they have no equal. None of them are (as 80% of the New Introductions are) of the "fly-by-night" sort, here today, gone tomorrow. They are time-tested true; they will give perfect satisfaction anywhere, in any soil, because they are selected from the many thousands of different seedlings, for those qualities, and have never been weakened by "intense culture." We have the faith in them that prompts us to give you this guarantee—buy some, grow them—if you are not thoroly pleased, return them and get your money back. (We have never yet been called upon to do that.) Our own introductions are denoted in the General List by an asterisk(*) preceding the name of variety.

Special Offers

(These apply only to cash orders of \$1.00, or more; no offer can apply on another.)

1. With all orders received, *postmarked* Feb. 1st or 2nd, you may include 50c worth entirely free for every dollar's worth ordered.

2. With all orders received *postmarked* March 2nd, we will include a free root of Ruth C. Kunzman or Kiss of Dawn, on request.

3. With all orders received, *postmarked* Feb. 18th, for \$1.00 or more, we will include free of charge, a root of Indian Princess or Kiss of Dawn; with orders of \$2.50 or more a root of Maid of the Mist or Tender Memories free; with orders of \$5.00 or more, a root of Mrs. Carl Kunzman or Waterlily; with orders of \$10.00 or more, you may include two of the three mentioned in \$5.00 offer and any one mentioned in the \$1.00 and \$2.50 offers, free of charge. Your letter *must* be *postmarked* as to the date.

4. Send us *New Customer's Orders* to the extent of \$2.00 or more and get, free of charge, a root of Imperial Velvet or Milton J. Cross; with \$6.00 or more of *New Customer orders* you may include both the foregoing and a root of *Midsummer Night's Dream*.

5. We will send you 100 different, our choice of varieties, guaranteeing at least double value, for \$15.00; 50 different, our choice, for \$7.00.

ANY SEVEN OF ANY ONE GROUP OF THE FOLLOWING GROUPS, FOR \$1.00; ALL 12, FOR \$1.60.

PINK AND ROSE SHADES—No. 6

Angelica	Harry Mayer	Queen of May

POMPONS, ALL COLORS—No. 12

Amber Queen	Frau Dr. Knabe	Little Storm King
Calumet	Golden Queen	Lloyd Hickman
Challenge	Indomitable	Phoebe
Darkey	Fascination	Prince Charming

13. In spite of all precautions, the identity of quite a number of varieties is lost in harvesting the roots; some of these are high-priced sorts, but, rather than grow them another year, we will send you 8 of these for \$1.00; 16 for \$2.00; and so on.
14. Each season we grow a tremendous amount of a number of varieties of Dahlias which are used (and specially suitable) for our large Wholesale Cutflower Trade; consequently we have, each season, an over-balancing supply of these varieties and in order to balance our stock must offer them (although at very low prices in General List) at a very special rate to reduce the stock. These varieties are indicated in the General List, by the name being in Capital letters. If your order is received before March 15, you may choose 50c worth of these extra, for every dollar's worth ordered. They are all of the best and will please you.
15. Gladiolus—We grow these for the cutflower market, so they *must* be good ones. We offer you 4 each, of 10 different colors, for \$1.00, postpaid; 10 each, of 10 different, for \$2.00; and 30 each, of the 10 varieties for \$5.00, all postpaid.
16. Each year we grow quite a number of dahlias from seed. It is a waste of time to use any but the finest seed; which *we* plant. Dahlias from seed produce as fine bloom and roots as from tubers or plants if best seed is planted in Feb. or March in a shallow box in house, or in frame and later planted outdoors. Our seed (the finest obtainable) \$1.00 per package of 25; \$4.00 per 125. Order by Feb. 20th, if you wish any.

Dahlia Plants

Green plants, hardened and vigorous, can be supplied only of those varieties as indicated in our regular *General List*. They can be sent out anytime wanted between May 1st and June 10th. Plant orders over \$2.00 are sent postage free; under that amount add 15c extra for postage. Any sized order by special delivery, 25c additional. Green plants are *not* included in any Special Offer. Our plants are from base cuttings only and therefore will produce fine clumps of roots.

Tube Roses

We have a large supply of the Double Mexican Everblooming Tube-roses, those heavily sweet-scented waxy white flowers so desirable for scenting and decorating the home. Bulbs can be supplied as follows: 12 for 40c; 30 for \$1.00, postpaid; in quantity, by express, not prepaid \$2.00 per 100.

Catalog space is limited, therefore the descriptions given the different varieties in our General List is very brief; just enough to give a general idea of the shape, size and color of flower.

Lengthy descriptions really are no better, as they tend to confuse the mind, especially if technical terms are used in giving the different hues and colorings. We've tried, so far as possible to give the colors in language which everyone can understand.

The size of blooms, as given, is for flowers grown in our comparatively poor soil; these sizes can be increased by disbudding, extra fertilizing, etc., but we do not recommend "high" culture unless for exhibiting purposes, as it invariably weakens the roots and causes them to be easily subject to rot.

GENERAL LIST

The prices in this list, unless otherwise noted, are for strong divided, roots, each 6 of any one kind for the price of 5. The figures following names of variety indicate size of bloom in inches, as grown here. The letters following name indicate type of flower, as follows: "D" for Decorative; "C" for Cactus; "B" for Ball (or show); "S" for Single; Coll. for Collarette; "P" for Paeony-flowered; "F" for Formal type; "I" for Informal type.

Those varieties capitalized we grow in immense quantity for Wholesale Cutflower Trade, hence the very low price.

Those designated by an * before name are our own originations.

	Each
Adorable I. D., 8½x4, soft yellow and pink tints.....	\$0.40
Agnes I. Young, I. D., 7x4, brilliant crimson, reverse and tip gold; very attractive.....	.25

*Wee Pink, very small, pale pink.....	.25
Winifred, white, overlaid violet.....	.20
YELLOW GEM, the very best clear soft yellow.....	.20

Dahlia Do's

Get your soil in as fine condition as possible before planting.

Keep top soil stirred; allow no crust to form or grass to grow near plants.

Water only during dry spell; on soil, not on plant.

Pinch or cut $\frac{1}{3}$ of the plant (top) when about 18 inches high, to produce lower, bushy growth.

Drive a stake about 6 inches from your plant and tie to it.

Keep all old bloom off. The more bloom you cut judiciously, the more will the plant produce.

Mulching around base of plants when in bloom conserves the moisture.

A week or 10 days after killing frost, dig plants carefully, cut stalk off within an inch of the clump, and store, upside down, in a somewhat damp cellar, or, put in boxes and cover with sand, soil or peat to prevent drying of roots, and store where least dry and coolest.

Examine roots occasionally during Winter; if any rot shows, cut it out and dust the cut place with sulfur.

When soil is warm in Spring, divide the clumps so that an "eye" will be with each division; one tuber divisions are as good as many tubers, so, cut away the excess.

To keep track of your varieties, moisten a tuber on each clump and print the name of the variety on it with an indelible pencil.

Remember that dahlias do best in the open; they like sunshine, air and cultivation.

Do write us for any information we may be able to supply.

Dahlia Don't's

Don't plant before the soil is warm.

Don't plant in wet soil.

Don't sprinkle—water at base of plant.

Don't plant under trees or among bushes.

Don't fertilize unless your soil is poor, or you want Exhibition blooms.

Don't let a crust form or weeds grow near your plants.

Don't fail to remove all bloom when past its prime.

Don't cut the tops off after frost; the roots should ripen a week or two before digging.

Don't expect to get good results from roots which had been grown the previous year under "high culture" for Exhibition purposes, unless you can give them the same treatment.

Don't go wild over every New Sort; 80% are not as good as the older sorts.

Don't fail to tell us how grand our dahlias did for you; we appreciate your good word.

Don't believe that all much heralded New sorts are superior; many of the older, low-priced dahlias are better than most of the new, high-priced ones.

Don't think that a small tuber is inferior to a large one; in most instances the small one is the best.

ORDER NO.

Kunzman's

NEW ALBANY, IND.

Make all remittances payable to CARL R. KUNZMAN

Name

Street, P. O. Box or Route.....

City..... State.....

Express Office

If different from P. O.

When shall we send.....Amount enclosed.....

[illegible]

Add 25 cents for postage and packing and we will include as extra 50c root, free.

State when you wish to receive roots; dahlias should never be exposed to drying air, so have them sent about planting time, which is about the same time as corn-planting time.

We have received hundreds of dollar bills by mail, without a single loss. Add 10 for postage on orders of less than \$1.00.

If **plants** our wanted by special delivery, which is very advisable, include 15c for extra postage.

EARN EXTRA ROOTS

No doubt you have friends or neighbors who are not on our lists, who buy Dahlia roots. If you will write their full names and addresses below, we will send them our catalog, file the names and for every dollar sent in by them we will allow you 25c value in roots, free of charge, *whether you order from us or not.*

A Word Picture of Our Dahlia Fields.

In our 1941 fields you will find 524 rows of Dahlias. 256 of these rows are 280 feet long; 268 are 480 feet long; if these Dahlias were planted in one continuous row, it would be about 42 *miles long*!

And in these rows the plants are *less than one foot* apart! How would you like to spend 2 solid days walking the rows to see the full grandeur of our more than 700 different varieties? You are perfectly welcome to see them anytime in blooming season, and enjoy their magnificence without any obligation whatsoever to buy.

You will then understand why there is more real enjoyment in buying and growing Dahlias than in ten times that amount spent otherwise.

WHAT OTHERS THINK OF OUR DAHLIAS

These letters are entirely unsolicited and are but a few of the many hundreds we receive each year.

"I sincerely wish to thank you for the nice bulbs you sent me, and especially the extra gift."

Rev. R. L. W., Ashland, Va.

"Your roots purchased last year were fine; Rose Glory can't be beat—sure is a wonderful cutflower."

N. N. G., Eau Claire, Wisc.

"My dahlias did fine last year—they always do when I plant your roots."

"I like your dahlias better than any I have bought elsewhere."

Mrs. A. E. J., Powell, Wyoming.

"The dahlias I bought of you last Spring did fine, started to bloom in August and bloomed until they were frozen in October."

Mrs. M. B., Des Moines, N. Mex.

"Thanks very much for the fine roots you sent me last year—they all bloomed wonderfully, especially the pink Ruth Kunzman."

H. A. K., Neshanic Station, N. J.

"We have had great success with the dahlias bought from you; I'm enclosing a picture made this Fall of some Jane Cowl I bought of you—the stalks were over 12 feet high, and loaded with perfect blooms and 9 inches across."

D. A. A., Belzoni, Miss.

"I must tell you of the wonderful success I had with your dahlias last summer; I had the most beautiful blooms I have had for years, and people came for miles to see them. Took several prizes at different shows, and received many nice compliments on them."

Mrs. H. A. K., Norborne, Mo.

"Your dahlias have been a source of great joy to me. They are most satisfactory in every way."

Mrs. L. G. J., Lillington, N. C.

"So far, I have never failed to grow a single root ordered from Kunzman's—so am writing these words of appreciation."

Mrs. H. H., Neshkoro, Wisc.

"I received my order—they are the best roots I have ever received from anyone, and for about half the price."

Mr. E. J. VanA., Charlestown, W. Va.

"I have been buying from you for several seasons, and am fully satisfied. No root from you ever failed to grow."

J. F. D., Chicago.
